## Work Experience

### ACLARK.NET, LLC

#### Partner & Python Web Developer

May, 2004 — Present

<http://aclark.net>

- Develop, deploy, maintain and support Python web applications with Django, Plone, Pyramid and Zope.
- Dramatically transform cross-platform platforms after stand-alone "outside the box" thinking. Quickly repurpose open-source resources vis-a-vis functionalized partnerships. Enthusiastically revolutionize wireless testing procedures for diverse relationships.
- Intrinsically unleash virtual e-markets after distinctive initiatives. Globally recaptualize interoperable bandwidth for empowered web-readiness. Progressively administrate next-generation catalysts for change rather than ubiquitous content.

**Neurophysiology Imaging Facility (NIF) → Division of Intramural Research Programs (DIRP) → National Institute of Mental Health (NIMH) → National Institutes of Health (NIH)**

**Systems Administrator**

March, 2013 — Present

<http://www.nimh.nih.gov/labs-at-nimh/research-areas/research-support-services>

- Evaluate and recommend hardware and software for purchase by NIF
- Install, configure and maintain hardware and software. Troubleshoot and resolve hardware and software problems
- Install, configure and maintain operating systems, web server, content management system, FTP server, directory services, file sharing services, revision control system, and backups. Manage network and system security. Analyze network performance and access to public resources
- Provide desktop support to NIF staff, resolve productivity issues
- Provide liaison to NIH CIT on infrastructure and security related issues

## **Scientific and Statistical Computing Core (SSCC) → Division of Intramural Research Programs (DIRP) → National Institute of Mental Health (NIMH) → National Institutes of Health (NIH)**

May, 2002 — October, 2005

### **Systems Administrator**

<http://www.nimh.nih.gov/labs-at-nimh/research-areas/research-support-services>

- Evaluate and recommend hardware for purchase by SSCC
- Install, configure and maintain hardware. Troubleshoot and resolve hardware problems
- Install, configure and maintain operating systems, web server, content management system, FTP server, directory services, file sharing services, revision control system, and tape backups. Manage network and system security. Analyze network performance and access to public resources
- Provide desktop support to SSCC members, resolved productivity issues
- Provide liaison to NIH CIT on infrastructure and security related issues
- Manage content management system, provide instruction to SSCC members on how to add and edit content
- Design and implement new site technology
- Respond to and resolve web site issues for the SSCC and AFNI community

## **Genuity**

### **Network Engineer**

October, 1998 — November, 2001

[https://en.wikipedia.org/wiki/BBN\\_Technologies](https://en.wikipedia.org/wiki/BBN_Technologies)

- Developed Perl/Expect software to support configuration management of 2000+ Cisco 2511 Access Servers, Equinox Terminal Servers, and Cisco Catalyst 1900/2820 Ethernet Switches.
- Developed Perl/SNMP/CGI software to support configuration of TELCO settings on "Big Box" access servers (more than 4 ingress T1s --Cisco 5400, Lucent APX 8000, Nortel CVX 1800).

- Configured NICs under Linux.
- Performed maintenance on Genuity AOLNet and DialLinx dial-up networks.
- Configured 2000+ Cisco Access Servers, Equinox Terminal Servers and Cisco Catalyst Ethernet Switches.
- Verified successful negotiation of TCP, PPP and L2TP protocols through dial-up connections between client programs and remote access servers.
- Diagnosed and resolved problems end to end.
- Installed and configured Debian Linux, Redhat Linux, Sun Microsystems Solaris Unix and Microsoft Windows workstations and servers.
- Provided production operations support.

## Charm Net

### Systems Administrator

January, 1998 — August, 1998

- Managed 4 BSDI Unix servers for over 2,000 users.
- Installed and configured DNS, NFS, Sendmail, Apache, INN and Dump/Restore.
- Installed and configured hardware and software for streaming FM radio to the internet.
- Installed and configured BSDI Unix servers and Microsoft Windows workstations and servers.
- Provided production operations support.

## Loyola University Maryland

### Help Desk Consultant & Student Technician

August, 1996 — November, 1997

<http://www.loyola.edu/departments/technology-services>

- Provided telephone and in-person technical support to students, faculty, and administrators.
- Performed installation, maintenance, and trouble-shooting of hardware and software in labs, offices, and dormitories.
- Installed and configured Sun Microsystems Solaris Unix, Slackware Linux, Redhat Linux and Microsoft Windows workstations and servers.
- Provided production operations support.

## Education

### Bachelor of Science in Computer Science

Loyola University Maryland

January, 1999

# Publications

## Plone 3.3 Site Administration

**PACKT Publishing Limited**

July, 2010

<https://www.packtpub.com/web-development/plone-33-site-administration>

*"Manage your site like a Plone professional."*

# Volunteer

## DC Python

**Co-Founder & President**

2008 — Present

<http://dcpython.org>

- Co-founded 501(c)(3) non-profit organization to promote & support Python software in DC.

## Pillow

**Fork Author & Project Leader**

July, 2010 — Present

<http://python-pillow.org>

- Forked popular Python Imaging Library (PIL) software to create frequently-updated and well-maintained version.
- Foster growth of core development team from single member to five members over five years.
- Write and submit grant proposal to fund Python 3 compatible version of Pillow; sent to Python Software Foundation February 28, 2013; passed unanimously on March 4, 2013.
- Implement and manage quarterly release schedule.
- Continuously oversee development to ensure best possible quality of releases.
